The first Troy Directory was published in 1829, and contained 2080 names. Of these, this volume records the residence of but *two*, William Barton and David Bristol. Another, George Sims, died May 17, 1890.

At last accounts the following were residing in other cities: Lemuel H. Tupper, Brooklyn; Isaac J. Merritt, New York; Thad. W. Patchin, Washington, D. C.

At the bookstore of Wm. H. Young, 8 and 9 First street, may be found a complete collection of the Directories of Troy. We have added during the past year a collection of Directories of other cities, and shall procure more as issued. Our patrons are cordially invited to make use of these books. For ordinary uses *for reference* no charges will be made.

TROY STREET DIRECTORY.

Giving the name of each street, and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Second street No. 168 comes, look at Second street on page 14 and find that Liberty street crosses at 156, and Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

Fire Alarm Telegraph.

CENTRAL OFFICE, ARBA READ STEAMER HOUSE.

Location of signal stations, and rules and regulations to be observed in giving an alarm of fire.

Directions to those holding Signal Station Keys.

If a fire is discovered in your immediate vicinity, go to the nearest Box. Pull the Hook all the way down *once* and let it go; wait a minute and if you hear no tap in the Box, or alarm from the Bells, go to the next nearest Box and pull the Hook as before.

If convenient, wait at the Box and direct the Firemen to the fire.

CAUTIONS.

1. Never open the Box or touch the Hook except in case of fire *near you.*
2. Never pull the Hook when the small Bell in the Box is tapping.
3. Never let the key go out of your possession, except to some known responsible person, to give an alarm.

EVERY POLICEMAN HAS A KEY.

NOTICE.

Complaints concerning the working of the Fire Telegraph, Irregular Striking of the Bells, or Tapping of the Boxes, etc., should *in all cases* be made to the superintendent, James Knibbs, at the Fire Alarm Office, Arba Read Steamer House.

MANNER OF STRIKING ALARMS.

Alarms of fire will be sounded by striking the Number of the Signal Stations on the City Hall, St. Joseph's, St. Mary's, St. Patrick's and St. Peter's Church Bells, and the Engine House Gongs, as for example: For station No. 3, three consecutive blows, followed by an interval of twelve seconds; Station No. 35, three blows with an interval of five seconds; then five blows, followed by an interval of twelve seconds; Station No. 172, an interval of five seconds between the one and seven; five seconds between the seven and two, followed by an interval of twelve seconds.

SESSIONS.

The School year is forty weeks or four quarters of ten weeks each. Commencing with the third Wednesday in September, closing with the last Wednesday in June. The only vacation is during the Christmas holidays.

The success which has attended the efforts of the trustees of the Seminary to maintain a day school of the first-class in Troy is assured. The patronage of our citizens is generous, and the scholarship and progress of the pupils satisfactory.

The Institution has recently been more completely equipped for instruction in the physical sciences and classes in primary branches have been arranged, which offer unusual advantages for young children.

It is confidently asserted that pupils residing at their own homes in Troy, have at the Seminary, means of advanced education equalled by only a few of the best boarding schools and colleges for young ladies in the country.

The School thus affords to the citizens of Troy unexcelled facilities for the thorough and economical education of their daughters, while surrounded by home influence and parental care.

An investigation of the merits of the school is respectfully invited.

This Company owns the entire water power of the Mohawk River at Cohoes, embracing the celebrated Cohoes Falls. Aggregate fall, one hundred and twenty feet, giving nearly ten thousand horse power. The Company's gate house and dam are among the finest structures of the kind in the United States.

The canals are so constructed as to give a succession of falls from one canal to another, varying in height from twelve to twenty-five feet. The power is leased by the Company, with land for factory building, in perpetuity, at an annual rental of about twenty dollars per horse-power, and considering the quality, is the cheapest in the country. It is an unfailing power; and during the past few years, while most of the water powers in the country have failed for a time, Cohoes has had an abundant supply, without one minute's stoppage. About one-third of this magnificent power is unappropriated, and appurtenant thereto are some of the finest factory sites to be found anywhere.

Cohoes is situated at the confluence of the Mohawk and Hudson Rivers, about four miles from Troy and ten from Albany, and is eligibly located with reference to New York and other markets, and possesses superior advantages for transportation to market, either by river, canal or railroad, having two canals and two railroads running through it. It is a thriving young city of nearly twenty thousand inhabitants, and contains some of the finest cotton and other factories in the United States.

THE

Massachusetts Mutual Life Insurance Co.

OF SPRINGFIELD, MASS.

M. V. B. EDGERLY, Prest. *JOHN A. HALL, Sec'y.*

INCORPORATED 1851.

REASONS WHY

YOU SHOULD INSURE IN THIS COMPANY.

1st. Because a copy of your application will be written in your policy.
As the application is the basis of the contract, no policy is complete without it.

2d. Because the Commonwealth of Massachusetts has always protected, by just and wise laws, the patrons of the Companies of that Commonwealth from loss by FAILURE or FORFEITURE.

3d. The Company declares annual CASH DIVIDENDS, which may be applied to the reduction of the 2d, and subsequent annual premiums, or to the purchase of additional insurance.

4th. The PAID-UP and CASH values (to which you would be entitled by the payment of two or more annual premiums) are written in the policy.

5th. Its policies are INCONTESTABLE after two years by their terms.

6th. Because there is nothing of value in LIFE INSURANCE that is not embodied in the policies issued by this Company.

SURPLUS, $9,657,248.

Offers its Distribution Policy as the most desirable form of Life Insurance contract ever presented. Its features are as follows:

1.—After two years this Policy places no restrictions upon the insured in respect to Residence, Travel or Occupation.

2.—Danger of forfeiture is avoided by the agreement, on the part of the Company, after the Policy has been in force three years, to give such an amount of paid-up insurance as will be purchased by the entire interest of the Policy-holder in the accumulations of the Company.

3.—Dividends will be credited to the Policy at selected periods, which dividends can be drawn in cash if desired.

4.—The Policy contract is in the simplest form. If the insured pays his premium while he lives, the Company will pay his Policy when he dies.

5.—A definite and liberal cash surrender value is guaranteed, for which the Policy can be canceled.

6.—A Policy which becomes a claim by death will be paid as soon as proofs are accepted.

7.—A Policy which is absolutely incontestable after two years.

Policies are issued having distribution periods of Fifteen or Twenty Years, as the applicant may elect. At such times the insured has the right to surrender his Policy to the Company and receive therefor in cash his entire interest in the funds of the Company, together with the dividends which have accrued. The cash surrender value of the policy is guaranteed in the terms thereof.

The options which are presented to the insured at the end of any distribution period are as follows: he may

Surrender Policy and Dividends for Cash; or,
Surrender Policy for a Paid-up Policy, and draw Dividends in Cash; or,
Surrender Policy and Dividends for a Paid-up Policy; or,
Continue Policy and use Dividends in reduction of future Premium; or,
Continue Policy (at original rate) and draw Dividends in cash; or,
Continue Policy (at original rate) and let dividends increase Policy; or,
Continue Policy (at original rate) and use Dividends to Purchase an Annuity.

Also, ENDOWMENTS with LIFE OPTION on an ENTIRELY NEW PLAN.

Northwestern Mutual Life

INSURANCE COMPANY,

OF MILWAUKEE, WIS.

Organized 1857.

JANUARY 1, 1890.

Assets, - $37,116,870. **Liabilities, - $31,475,923.**

Surplus, - $5,640,947.

ITS UNEQUALLED ADVANTAGES:

DIVIDENDS

Reduce the **cost** of life insurance, and render Endowment, Semi-Tontine, Free Tontine, Limited Tontine or Distribution Policies **profitable.** Northwestern **dividends** are two, three and frequently nearly **four times larger than those of other companies issuing similar policies.**

STRONGEST

SAFEST

CHEAPEST

BEST

A larger ratio of surplus to liabilities (allowing for Tontine accumulations) than any other leading company.

The only large company without a dollar of fluctuating securities, and debarred by state law and charter restrictions from ever owning any. **All investments absolutely the best and safest. Mortality for years far below that of any other large company. An enormous advantage from higher rates of interest**—the chief factor of safety and cheapness.

While the premiums are about the same or lower than in other companies, **the dividends of the Northwestern are vastly larger than in all other companies, enabling it to afford precisely similar policies at from fifteen to forty per cent. below the usual cost, and to return a much larger amount of surplus under Semi-Tontine policies than any other company possibly can.**

The Northwestern Mutual Life is now doing over double the new business of any other American company confining its operations to our own country. (Its business is really confined to the Northern United States.) **It is a purely mutual company** conducted solely by and in the interests of its policy-holders. It has not now, never has had and never can have a single dollar of capital stock to take the control of the Company from the premium payers; and its charter absolutely prevents accumulation of proxies in the hands of any one man, or any number of men.

INSURERS

Can **realize** from **Fifteen to Forty per cent. better investment results,** or **save that proportion of every Annual Premium,** by seeking an interview with, or sending date of birth for **proposition by mail,** to

The Only Company in this Country Computing its Legal Reserve

ON A 3 PER CENT. BASIS.

During the year 1882, in view of the tendency to a gradual decline in the rate of interest, and of the long time many policies had to run, and in order to provide against every contingency arising therefrom, the company changed its standard of solvency as to new business, basing its calculations on earning 3 per cent. instead of 4 per cent., (which latter is the legal standard)—the only instance in this country of a conservative change of basis by any company.

This higher Reserve means:

1. **The highest security known to Life Insurance.**
2. **A reduction in the margin for expenses.**
3. **An ability to invest in the best securities.**
4. **Larger accumulations of money to earn interest for policy holders.**
5. **Larger future returns of dividends.**
6. **Larger paid up values.**
7. **Larger Cash Values.**

THE TONTINE POLICIES of the New York Life Insurance Company, that have matured, have shown the **Best Results of any Policies in any Company** (whether Tontine or ordinary), issued at like ages and premium rates, and running through the same Period of Time.

Fair Questions for 1890:

1st.—Why do you leave your Family, your Estate and your Old Age unprotected when the NEW YORK LIFE INSURANCE COMPANY will make them all safe under a single policy?

2nd.—Why do you carry co-operative insurance and invest money in bonds or banks when the NEW YORK LIFE will sell you cheaper insurance than the co-operative and a better investment than the bank?

3rd.—Why do you insure under the old style policies when the NEW YORK LIFE will sell you a policy with guaranteed dividend of 100 per cent. of all premiums paid in case you die within twenty years?

4th.—Why do you work for a small behind-the-times company, Messrs. Agents, when you can do twice the amount of business for the NEW YORK LIFE?

BEST ADVERTISING MEDIUM.

ADVERTISING RATES LOW.

The Troy Northern Budget.

THE BUDGET carries more advertising than any paper in the State outside of New York city. Do not take this for a fact but send for THE BUDGET and see how it is appreciated by live advertisers.

The combination of circumstances necessary for successful advertising is found in its best condition in this vicinity in THE BUDGET, whose circulation, influence and value as an advertising medium is unexcelled.

You pay no more in proportion for advertising in the BUDGET than you do in any other paper in Troy or vicinity, but good things always come high.

—40—
COLUMNS

Of Advertisements are often printed in THE BUDGET—nearly 15 columns more than in any other paper of Troy or vicinity of the Saturday previous.

THE BUDGET is the advertising medium for northern and eastern New York, Vermont, western Massachusetts and western Connecticut.

THE BUDGET publishes more of what is known as small advertisements, such as "Wants," "For Sales," "To Lets," "Rooms and Board," in one issue than all of the Troy papers put together.

THE BUDGET is a 12 or 16-page paper, as advertising demands. Its advertising rates are no higher, circulation considered, than any other paper in this vicinity.
